

I would like to comment on how K-Love is a vital asset to our community. K-Love is the only station that my family listens to, and it is our only local Christian radio station that we have access to. It uplifts us every day, and we would be lost without it.

If LPFM took priority over my K-Love station, we would have no Christian radio station to listen to in our community, and with all of the dirty lyrics on other stations, there would be no alternative but to stop listening to the radio in our town.

Please don't take our station off the air.
